All Parish and Town Councils throughout England are required by law to hold an Annual Parish Meeting at this time of year. The Chair of the Parish Council is responsible for calling the meeting, the purpose of which is for the Council to explain what it has been doing over the last year. It is also an opportunity for electors to have their say on anything they consider to be important to residents in the Parish. Perhaps you have ideas which might benefit the area, or perhaps there are problems that you think need resolving. Everyone is invited to attend but only registered electors of the Parish may speak. The Chair of the Parish Council will chair the meeting and Parish Councillors will also be available to answer questions.
