

# VILLAGE HALL PARKING

The Gamston Village Hall is situated in a quiet residential setting where parking is limited. Holme Pierrepont and Gamston Parish Council strive to be a good neighbour.

We encourage users of the hall to walk or cycle, where possible. A cycle rack is available behind the Village Hall.

If travelling by car, please ensure you park with consideration for the neighbours and local residents. Please **DO NOT PARK** on the pavement or narrow sections of road, marked in **RED** on the map below. **Access is required for large and emergency vehicles at ALL times.**

Please think of others and choose a safe and considerate place to park. Take a moment to imagine, due to the inconsiderate parking of others, an emergency vehicle was not able to reach its destination - this could make all the difference to someone's health or even life. How would you feel if your refuse was not collected, or a delivery not made, because the lorry could not access your street?

Areas where safe and considerate parking may be available are marked in **GREEN** on the map below. **Please DO NOT PARK, either fully or partially, across residents' driveways, or on the pavement.**

We also ask that you **DO NOT PARK** across the large village hall gate. Access is required at **ALL TIMES**.

On occasion, we have experienced repeated inconsiderate parking at the Village Hall. Where this continues, we may have to consider the refusal of future bookings.

**We appreciate and thank you for your cooperation.**
